## GRAPHICS & MULTIMEDIA DESIGNER

---

A generalist digital artist whose passion for learning created a unique creative position in three different corporate roles: Designing and creating print, digital, and video brand-promoting media concepts that positioned products and services in the marketplace. More than 24 years of experience in: Microsoft Office, Adobe Photoshop, Illustrator, InDesign, and After Effects, as well as LightWave3D. This trustworthy foundation of skills advanced branding and became the public face of each business. Most notably, the passion of the applicant is to be continually learning new design techniques and tools: Currently enrolled in an online course for UX/UI certification.

---

## CAREER HIGHLIGHTS

---

- Became the sole in-house graphic designer, video editor, animator, product image artist, and illustrator.
- Developed and maintained branding for a startup. Became the sole source of marketing images, illustrations and presentations to investors. Maintained the website.
- Developed hundreds of print media pieces in support of trade shows, branding, advertising, and social media presence. Added a series of promotional posters that became one of Marketing's most popular incentives.

---

## PROFESSIONAL EXPERIENCE

---

*Release of Information Specialist* | **Sharecare** December 2020 – Present  
Involved in processing medical records releases for a variety of medical purposes. Job requires intense training in Federal, state, and local laws and regulations to maintain HIPAA-compliance in all dealings, and prompt service for patients, medical providers, and legal customers. 100% remote work using a variety of proprietary software.

*Graphic Designer and Multimedia Specialist* | **JEOL USA, Inc.** June 2008 – July 2019  
Marketing and advertising collaboration; photo editing; trade show graphics and displays and their production and warehousing; presentation preparation; video production and 3D motion graphics for product imagery, animations, and concept visualization with LightWave3D; and general Photoshop work for various in-house customers. Workload included 1 to 5 graphics per trade show, 20 to 30 shows per year, across three different international offices. Graphics ranged from letter-sized signs to 3 meter by 2 meter booth walls. Illustrator, InDesign and Photoshop were crucial for these designs.

*Marketing Support Specialist* | **OmniSonics Medical Technologies, Inc.** December 2006 – June 2007  
Website development; public relations; presentation preparation; product imagery & animations; product and procedure visualization; trade show management; trade show graphics and displays; and general Photoshop and Illustrator work. Illustrations and 3D animations.

*Digital Artist* | **Nangle Media Design** September 2003 – June 2008  
Nangle Media Design was created around the skills of the applicant and served a wide range of clients.

*Graphics & Multimedia Designer* | **Boston Scientific Corporation** January 1994 – September 2003  
Sole designer for one division. Learned Photoshop, Illustrator, InDesign, Rhino3D, and Premiere on the job. Created artwork, design and layout on more than 100 print pieces: Nearly all the print production and show graphics for seven years. Involved in the creative process for more than 20 sales & marketing meetings and scores of presentations. Twice transitioned the Marketing Services department to a new corporate image campaign. Designed and produced a score of promotional, motivational, and illustrative videos including 3D animation.

---

## CURRENT INTERESTS

---

- Refining my skills in computer graphics and artwork.
- Currently enrolled in an online course for a certificate in UX/UI
- Also experimenting with game engines, XR techniques, and 360 video for the authoring of interactive presentations.
